**Projects**

*Project:* Customized music player (Planning Stages)

*Client:* Myself / 24thbay.com

*Technology used:* PHP /HTML form front-end /MySQL server back-end

*Project:* Yums (a self-hosted form of Delicious) (Planning Stages)

*Client:* Myself

*Technology used:* PHP /HTML form front-end /MySQL server back-end

*Project:* Intranet birthday/employee info site (Planning Stages)

*Client:* CALA

*Technology used:* PHP /HTML form front-end /MySQL server back-end

*Project:* Event Registration page (7/19/12 to 8/22/12)

*Client:* Florida Center for Reading Research (Florida State University)

*Technology used:* PHP /HTML form front-end/ MS SQL Server back-end/ MS Excel for the reports

*Project:* Video Dubbing Database (1/19/10 to 6/24/10)

*Client:* The Florida Channel (part of WFSU-TV/FM, Florida State University)

*Technology used:* Access Front-end/ MS SQL Server back-end (SQL Server installed on a VMWare VM)

*Project:* Music Library Inventory Database (around 6/9/10)

*Client:* WFSU-TV/FM (Florida State University)

*Technology used:* PHP /HTML form front-end/ MySQL Server back-end

*Project:* Museum Gallery Inventory Database (9/25/09 to 1/20/10)

*Client:* WFSU-TV/FM (Florida State University)

*Technology used:* PHP /HTML form front-end/ MySQL Server back-end

*Brian K Vagnini - Programming CV (continued)*

*Project:* MeMoney Calculator (found at <http://vagnini.net/tools/m-balances.htm>)

*Client:* Myself

*Technology used:* JavaScript /HTML form front-end

*Project:* Online PDF menu uploading system (3/18/08 to 7/6/08)

*Client:* Paradigm Restaurant and Bar

*Technology used:* PHP /HTML form
